# 对外开放 API 文档

## 概述

本 API 文档描述了对外提供的应用程序接口 ,允许第三方开发者与我们的系统进行集成和数据交互。请在使用前仔细阅读本文档，并确保遵守相关的使用条款和政策。

## 基础信息

- **API 基础 URL**: https://data.tongbaishijia.com/api/thirdservice
- **协议**: HTTPS
- **数据格式**: JSON
- **认证方式**: API Token
- **字符编码**: UTF-8

## 认证

### API Token 认证(通过接口获取)

在请求头中添加：

```
Authorization: Bearer YOUR_ACCESS_TOKEN
```

## 通用规范

- 所有请求必须使用 HTTPS 协议
- 请求和响应的数据格式为 JSON
- 成功的 HTTP 状态码：200, 201, 204 等
- 错误的 HTTP 状态码：400, 401, 403, 404, 500 等
- 错误响应格式：

```
{
  "error": {
    "code": "ERROR_CODE",
    "message": "错误描述信息"
  }
}
```

# API 端点

## 1. 获取 TOKEN

### 1.1 获取 token

- **方法**: POST
- **路径**: /token
- **请求体**:

```
{
  "username": "testname",
  "password": "securePassword123"
}
```

- **响应**:

```
{
    "access_token": "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJ1c4VySWQi
}
```

## 2. 数据管理

### 2.1 获取链接数据报表

- **方法**: POST
- **路径**: /data
- **认证**: 必需
- **请求体**:

```
{
    "product": "url",
    "page": 1,
    "limit": 50,
    "start":"2025-11-01",
    "end":"2025-11-04"
}
```

- **响应**:

```
{
    "code": 20000,
    "data": {
        "total": 4,
        "items": [
            {
                "date": "2025-11-04",
                "product": "https://",
                "ad_requests": 3816,
                "ad_matches": 3192,
                "ad_coverage": 83.65,
                "ad_impressions": 2528,
                "ad_impression_rate": 79.2,
                "ad_clicks": 194,
                "ctr": 7.69,
                "ecpm": 4.52,
                "earnings": 11.42
            },
            {
                "date": "2025-11-03",
                "product": "https://",
                "ad_requests": 3521,
                "ad_matches": 3016,
                "ad_coverage": 85.66,
                "ad_impressions": 2414,
                "ad_impression_rate": 80.03,
                "ad_clicks": 165,
                "ctr": 6.83,
                "ecpm": 4.1,
                "earnings": 9.89
            },
            {
                "date": "2025-11-02"
```

### 2.2 获取国家以及单元位置数据报表

- **方法**: GET
- **路径**: /adunit
- **认证**: 必须
- 请求体

```
{
    "product": "url",
    "countryCode":"BR",
    "adunit":"",
    "page": 1,
    "limit": 50,
    "start":"2025-11-01",
    "end":"2025-11-04"
}
```

- **响应**:

```
{
    "code": 20000,
    "data": {
        "total": 4,
        "items": [
            {
                "date": "2025-11-04",
                "product": "https://",
                "country_code":"BR",
                "ad_unit":"",
                "ad_requests": 3816,
                "ad_matches": 3192,
                "ad_coverage": 83.65,
                "ad_impressions": 2528,
                "ad_impression_rate": 79.2,
                "ad_clicks": 194,
                "ctr": 7.69,
                "ecpm": 4.52,
                "earnings": 11.42
            },
            {
                "date": "2025-11-03",
                "product": "https://",
                "country_code":"BR",
                "ad_unit":"",
                "ad_requests": 3521,
                "ad_matches": 3016,
                "ad_coverage": 85.66,
                "ad_impressions": 2414,
                "ad_impression_rate": 80.03,
                "ad_clicks": 165,
                "ctr": 6.83,
                "ecpm": 4.1
```
